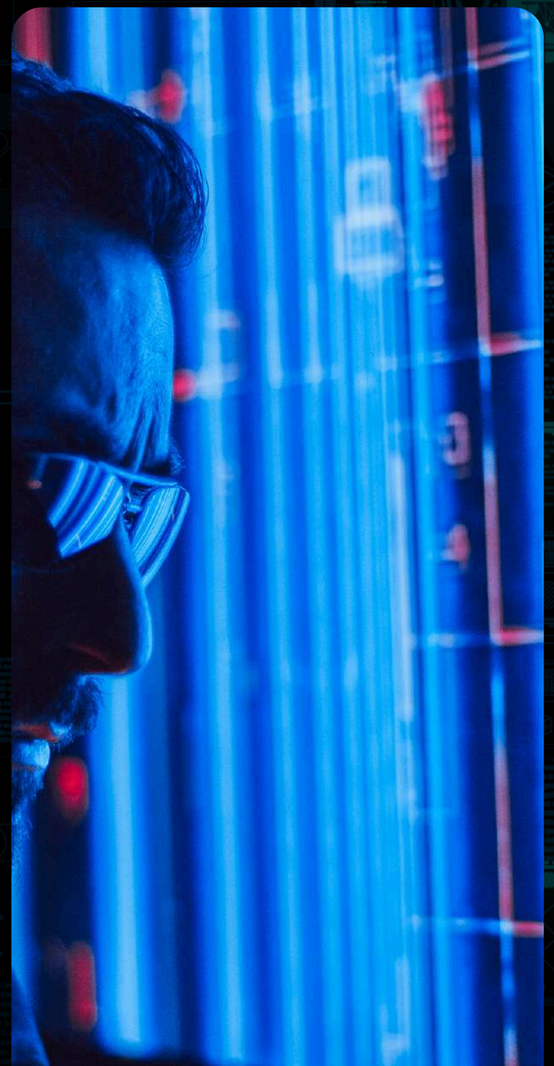
INDECISIVE

Sorite Gang

PROBLEM STATEMENT

SMART PEOPLE. BAD DECISIONS.



- Poor cross-department decisions cost Malaysian companies ~RM2.1 billion yearly
- Major decisions take 3–6 weeks on average
- 67% of workers spend 4+ hours/week in unproductive decision meetings

1. Unstructured Problem Solving

- No structured way to solve daily issues
- No guidance to turn problems into solutions
- Lack of managerial frameworks in SMEs

2. Poor Decision-Making

- Decisions rely on intuition & fragmented input
- Limited use of data in decision process
- Lack of tools and expertise

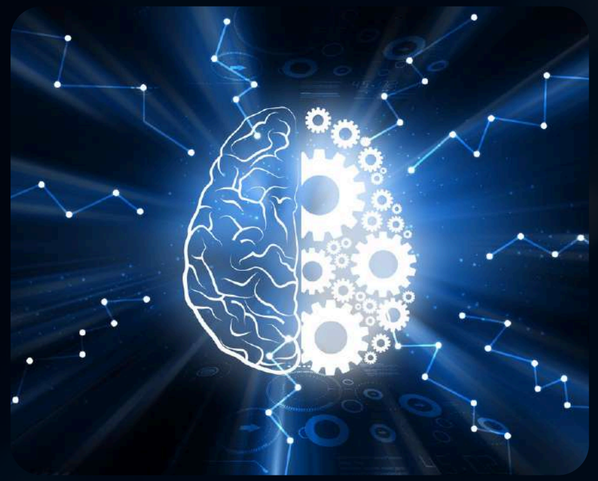
3. Fragmented Organisation

- Departments work in silos
- No system to combine ideas
- Duplicate efforts & missed opportunities

4. Idea-to-Execution Breakdown

- Ideas stop at discussion, no structure to execute
- Problems unsolved, decisions rely on intuition
- Silos block scaling → poor business outcomes

PROPOSED SOLUTION



Problem Validation

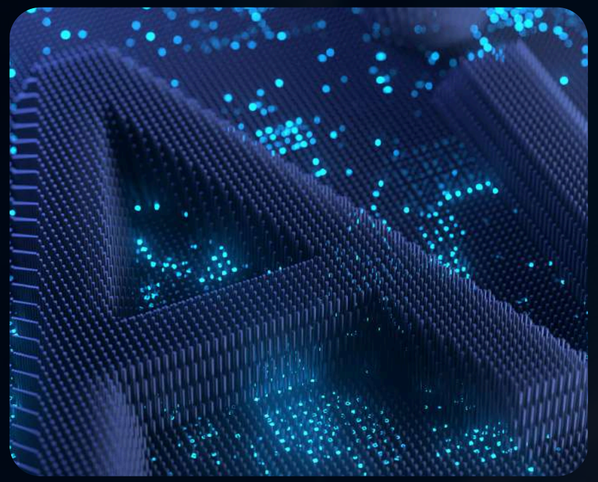
- Validate problems using **live company data**
- Provide instant **feasibility verdict**

Blueprint Generation

- Generate multiple solution options
- Compare **cost**, **ROI**, and timeline

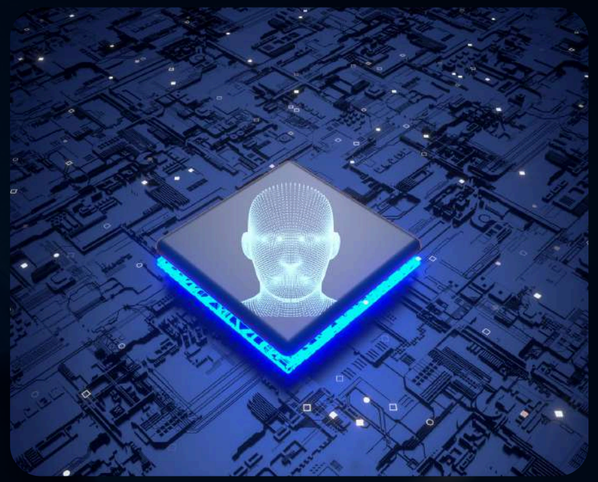
Assumption Audit

- Continuously test **key assumptions**
- **Recalculate** outcomes in real time



Portfolio Optimization

- Evaluate and rank competing solutions
- Merge for maximum efficiency and impact



Live Tracking

- Monitor performance in real time
- Compare predicted vs actual results

How it works?

BUSINESS MODEL

Tier Subscription

STARTER

RM 299 /mo

- Up to 20 users
- 50 decisions/month
- All roles

GET STARTED

PRO

RM 699 /mo

- 3 Blueprint generation per problem statement
- Full workflow (employee → manager → director)
- Integration with HR / project tools

GET STARTED

MAX

RM 999 /mo

- Multi-department blueprint merging

GET STARTED

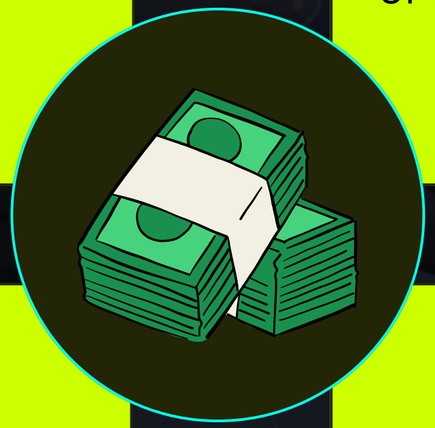
Revenue Stream

1. Monthly SaaS subscriptions

Revenue from tiered plans. Scales with number of decision made

2. API-based pricing

companies pay per validated decision or insight generated



3. integrations with external tools

Charge for advanced workflow connectivity

Consulting: Enterprise Setup Package

- One-time fee for system setup and onboarding
- Includes data source configuration
- Covers staff training for smooth adoption

Market Segment

Abstract

Micro, Small, and Medium Enterprises (MSMEs) form the backbone of Malaysia's economy, accounting for nearly 97% of business establishments and contributing 39.1% to the GDP in 2023 (SME Corp Malaysia, 2024). This study provides a comprehensive review of the performance of the Malaysian MSME sector. This study synthesizes recent statistical data and empirical studies to

Department of Statistics Malaysia (DOSM). (2025). Micro, Small & Medium Enterprises (MSMEs) Performance 2024

01 SMEs make up ~97% of all businesses in Malaysia

02 Contribute ~39.5% of GDP (RM652.4 billion in 2024)

03 Employ ~48.7% of total workforce (~8.1 million people)

04 Only 4 in 10 SMEs succeed in scaling their business

Target Market

1. TRANSITIONING SMEs
2. DIGITAL-FIRST GROWING COMPANIES
3. ENTERPRISE & GLCs

COMPETITOR ANALYSIS

Decision-Making Depth
Operational Context Awareness
AntiFault
No company context awareness
No approval workflow (staff → manager → director)
No structured decision output
AI Chat Tools
Enterprise System
Too complex and costly for SMEs
No real-time problem-solving support
Not flexible for daily decisions
No decision intelligence
No AI-generated solutions
Requires manual problem structuring
Project Management Tool

WHY WE STAND OUT?

No competitor does all three simultaneously:

- ✓ Pull internal company context automatically
- ✓ Generate structured comparable blueprints
- ✓ Merge competing departmental proposals

Indecisive

Blueprint merging is our most defensible feature. Nobody has built it. Nobody is building it.

FUTURE EXPANSION

Phase 1

Platform Expansion

Goal: Build Enterprise decision infrastructure

- Board-level decision intelligence
- Industry frameworks + enterprise deployment

Phase 2

Ecosystem & Marketplace

Goal: Create a scalable decision platform ecosystem

- Open APIs + solution marketplace
- Enterprise reporting + strategic partnerships

Phase 3

Regional Expansion

Goal: Scale across Southeast Asia markets

- Expand SG → ID → TH → VN
- Localisation (language + regulations + industries)

Outline business growth across five clear quarterly stages.
